Subject: PSC Website Comments:

Dear Commission,

I want to express my deep concern and frustration upon hearing the news of Duke Energy's request to increase rates by 9.3%. I am an unemployed mother of 3, with a working husband. We are paying all our bills with great specific management of every penny we make. An increase in anything is a hit to our wallet. Our story is not different than millions in this state. I hope you will take the current economic situation before grating this very large, profitable company it's request to make more money. I wish we had the choice to switch to another company, but they have a monopoly on this service. We have nowhere else to go. Please be an advocate for all the citizens of South Carolina and deny their request.

If there is something that we can do other than contacting you and Duke Energy to be sure this increase does not pass, please let me know.

Sincerely,

Kathryn Plyler
